

# ABRANET® SOFT

Abranet Soft is a combination of a multifunctional net abrasive and a thin foam layer. The foam layer and open structure provide flexibility that allows the material to easily follow surface contours and minimises clogging. Since dust collects in the foam layer during sanding, the result is a smooth surface finish. Abranet Soft is suitable for pre-polishing lacquered surfaces, while coarser grits can be used for intermediate sanding of lacquered wooden surfaces by hand. Recommended for wet sanding.

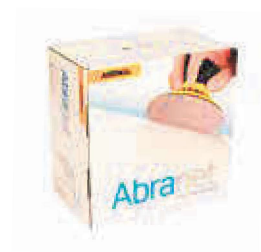

TECHNICAL SPECIFICATIONS	
<b>Bonding</b>	Resin
<b>Grain</b>	Aluminium oxide
<b>Coating</b>	Closed
<b>Colour</b>	Maroon
<b>Grit range</b>	P320, P500, P800, P1000
<b>Backing</b>	PA net/foam/velour
<b>Available as</b>

# AUTONET®

Autonet is specially developed for the automotive refinishing industry. A combination of high performance and a longer lifespan than traditional abrasives gives a cost-effective solution. Designed for dry sanding by machine or by hand, its true dust-free sanding characteristics result in a cleaner work environment, as well as a better surface finish.

TECHNICAL SPECIFICATIONS	
<b>Bonding</b>	Resin over resin
<b>Grain</b>	Aluminium oxide
<b>Coating</b>	Closed
<b>Colour</b>	Grey
<b>Grit range</b>	P80, P120–P320, P400–P800
<b>Backing</b>	PA net / PES net
<b>Available as</b>
